APPROACH AND PHILOSOPHY

Through a **multi-layered approach to exploring Jewish adulthood**, participants will have the opportunity to **discover what it means to them to be an adult** – and what it means to be a Jewish adult; determine what responsibilities come with adulthood; envision and create what their bar or bat service will look like; decide on a mitzvah project that enables them to give back to the community; and begin to understand the beauty and importance of being a part of a **global Jewish family**.
